

# 调色机 Ink Dispenser

定义色彩 · 智控流体 Mastering Colors · Shaping Fluids

- 适用于水性/溶剂型液体  
Suitable for Water/Solved based liquid
- 称量精度:0.02g  
Weighing Accuracy: 0.02g
- 软件功能可定制  
Customization of software functions
- 最小注出量:0.02ml  
Minimum Discharge Volume: 0.02ml
- 操作简单，易维护  
Easy Operation and Maintenance

## 产品介绍 PRODUCT INTRODUCTION

D2-INK是一款专为印刷和油墨行业设计的高性能自动化流体分配系统。该系统擅长对点色及返色配方进行精准验证，确保实现精准配色。

Eliminate color guesswork with the D2-INK, a high-performance automated fluid dispensing system built for the printing and ink industries. By providing precise verification for spot color and ink return formulas, it ensures perfect color accuracy for every single batch.
